

March 1<sup>st</sup> 1872

Dear Brother

I have been requested to see Mr. George Laidlaw. in regard to what chance there would be of getting the Credit Valley R.R. thro past Cayuga & thence to Woodstock, which project has been talked about. And as I don't know Laidlaw personally I have no business in Toronto in the mean time. You will see next time you are down, and see either Laidlaw or some other of the parties interested in the scheme & get all the information you can in regard to it.

We have had plenty of water the last few days. but it is slow work getting the flour to the Station as the Road is bad.

Crosby writes that he will require more flour than we can give him & not to call any for Montreal. Since he was here I sold 1000 Raml. Coats for men at \$6.30

as we had a big lot of wheat thought  
it best to let. Some so in case of any  
great change in the Market. I also  
sold 1000 Super for may at \$5.95 thro  
Williamson. Wheat has nearly  
stopped coming in now not by neither  
sleighing nor wheeling. I have a  
letter from Mackenzie Newspaper saying  
that within the last 2 weeks there has been  
an advance of 50¢ on flour & that they  
could sell at \$9 to 9 1/4 & if the surplus  
was as good as formerly it would bring  
\$9.50

Yours aff Mr Wm  
D. Goldie

We are getting Henry Esley for Miller  
he comes from Mich<sup>x</sup> & will be here next  
week
